A Letter from the owners-
The AQS Choice and Commitment, since 1996

To all professionals - Distributors, builders, fabricators, contractors etc and others who have stone sourcing requirements for container purchases or projects (cut-to-size direct from factory)

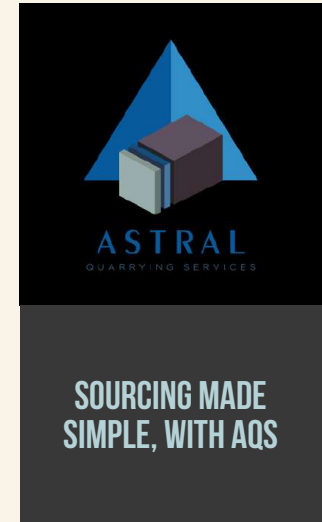

Dear Customer,

Uncertain times call for flexible measures and consistent performance. That's where AQS can be your trusted partner for sourcing stone products in high sales volumes and for critical projects. Our USP is simple and is focused on mitigating all your concerns related to sourcing stone slabs globally. We do this through our Inspection Services- by being your feet on the ground in leading factories around the world where innovation and quality are key differentiators. With help you get your foot in the door with the best suppliers in Natural and Engineered Stone as a result of 25+ years of sourcing partnerships to ensure that-

- 1) We minimize sourcing risk for you, by keeping the Supply chain flexible at all times for a diversified range of products, both Natural and Engineered from leading manufacturers in the world.
- 2) We help you stay ahead of the curve and keep innovating; your customer is going to notice the differentiation and value in your product the moment he/ she steps into our warehouse.
- 3) We therefore strive to help you maximize sales and profitability for the product segments of your choice
- 4) We are here to understand your business as a friend and are not here to sell you our agendas or volumes.

Bringing you the gift of trust through consistent and reliable service. We look forward to working with you in the long term.
